

Project Management using EDN Issues
(Spring 2021)

F – Did not use EDN Issues

The student neither created a task (opened an issue) nor changed any task's status.

D – Partially used EDN Issues

The student either opened some issues or changed the issue status but not both.

C – Used EDN Issues

The student both opened some issues and changed the issue status.

B – Used EDN Issues Well

The student defined a sufficient number of tasks (issues) that were usually specific and measurable and updated task status promptly.

A – Used EDN Issues Very Well

The student defined a sufficient number of tasks (issues) that were always specific and measurable and updated task status promptly. Completed tasks include a link to the corresponding output(s).
