Documenting Technical Contributions Rubric
(Ver. 2022-08-17)

You and your team use the EDN as your design notebook. Your ability to document your design process, progress, and accomplishment is evaluated weekly from the second week through the fifteenth week. The points earned for all 14 weeks are totaled into your semester Documenting Technical Contributions grade.

Score each week:

- 0.0 points - The student did not document any technical progress (accomplishment).
- 0.5 points - Documented technical work is either ambiguous or unclear.
- 1.0 points - Documented technical work is useful and clear so that teammates can report the student's progress (accomplishment) to the CE/PE/sponsor.

The following table shows the conversion from a total numeric score to a letter grade.

Letter Grade	Total Score
A	12 or higher
B	11
C	10
D	9
F	8 or lower

Hint: Depending on the work done, documentation should be posted to the EDN Forums, wiki, or the Repository.
